COATES AND GENTRY RE-ELECTED

For Another Two-Year Term and He is a former governor of his Normal Regents Transact Other Business

The Board of Regents of the Eastern Kentucky State Normal School met in regular quarterly session on the campus on Saturday. All the Regents were present as was also Hon. George Colvin, State Superintendent of Public Instruction and ex-officio chairman of the Board. Much important business was transacted. The creation of normal summer schools throughout the district was considered and approved. These summer local normals are for the proper instruction and preparation of teachers for their profession and are necessary because of the increased scholarship and normal training required by the new law elevating would continue. the standard of qualification as well as the salaries of all teachers WIFE SOLVES A WAR in Kentucky.

The addition to the boys dormitory was found to be about finished and furnished and will be opened for the next term. Young men now rooming out in the city will have first preference to enter the new rooms in the addition.

T. J. Coates was unanimously re-elected president for the ful term of two years. and F. C Gentry was likewise re-elected after Yates had unexpectedly rebusiness manager. Both these turned. Yates recently was reofficers have more than made good and also received the grateful thanks of the entire Board.

So much time was necessarily consumed in the consideration sat down to supper last night to and transaction of important ciscuss the situation. During the questions of business and policy meal the wife excused herself. that the election of the members Later a note was found saying Kerr will have the distribution of terians and First Christians Sat of the faculty was postponed to an adjourned meeting to be held with ficeige McDonald and that in Richmond on April 23.

REDS LOSE

Cincinati, April 15.—Pittsburg bunched hits on Marquard in the sixth and eighth inings and easily defeated Cincinnati Thursday, to 2. Errors by Bohne were rethe first and fourth innings, the do little with Cooper and were dangerous only in two innings. The score:

Batteries—Cooper and Schmidt Marquard and Hargrave.

of Calloway county. The flock consists of 330 hens which averaged 18.8 eggs each.

WACO HIGH SCHOOL

erous encouragements were not needed, however, as their team whereupon, at the suggestion of some of the spectators, Prof Koffman and I agreed to allow one of the town boys to catch for Waco High. But even then Waco could not score, so after another inning or two, seeing that we were hopelessly beaten, we put in a second baseman and a center fielder from our town team for the sake of practice work. Even then we were unable to score, and Madison High ran up their score to 19. Harvey Brock pitched for Madison High and Morton Elder pitched for Waco High. The star plays were made by Brock, Reeves and Stone, who made home runs. It must be said, however, in respect to the Waco team that there were only six high school students on the team; two from the eighth grade and one from the fourth grade. The regular pitcher, an eighth grade boy, was absent. Though the game was one-sided, everyone seemed to enjoy the outing and the fun, and we were

patriotic spirit and knowledge. Mrs. Chenault began her report by saying that the committee has found difficulty in attempting to crowd into six months what they had expected to do in a year. Her report was a splendid one ,giving the sites which had been investigated in Floyd, Lee, Elliott, Menifee and Leslie counties, and telling of the offers made, the generosity of the mountain people, and their appeals and anxiety for the extension of educational work.

Mrs. Chenault had written hundreds of letters and sent out postals as well, and she and her committee had made a very thorough investigation in the short time, the report being extremely interesting. At the close she made two recommendations, one that the school be called the Kentucky D. A. R. Mountain School and the other that all the regents of the state chapters be appointed on the permanent committee for the building of the school after the site had been selected. The motion for the naming of the school was laid on the table and the matter will be decided upon at the regular state conference to be held in Frankfort in October by invitation of the Frankfort chapter and the Susannah Hart Shelby chap-

ter of the state capital.

Mrs. Charlton Alexander, Paris, read the report of the committee who went to Floyd county last autumn to investigate the site which was finally chosen. The offer from there was the new school building, six and one-half acres of and and subscriptions from the people, the land valued at \$10,000 and the school at \$6,000. Mrs. William Rodes presented the appeal of Sandy Hook, in Elliott county, within more easy radius, a needy and poorer county. The matter was finally decided by 14 to 11 votes in favor of Hueysville as the site. It is on a branch railway of the C. & O. and by the postoffice of Bosco.

Mrs. Chenault favored the Lee county offer of 100 acres of fertile land and she hopes for the school o be agricultural and vocational. Before the closing of the conference Mrs. Victor Dodge announced that the Bryan Station

In these times you cannot afford to be forgotten

THERE never was a better time to advertise than right now. The buying power of any average family has increased since last year—everybody is earning more money.

Buying Liberty Bonds, War Savings Stamps, and paying war taxes is a stimulus and a benefit to honest business.

Advertising in America has been the call to action in recruiting and bond buying and Red Cross subscriptions.

Advertising stirs people into more rapid action.

You have seen the successes of advertising campaigns for government projects, you have seen the success of advertising in building up big businesses.

Are you using enough advertising to accomplish what you most desire to accomplish for YOUR business.

The best time to advertise is when prices are high. Are you waiting for a better time than NOW to advertise?

Eliminate advertising and you reduce buying to its barest bread and butter basis.

Advertising makes buying; without it you must SELL.

It's hard to think of a business or a commodity that isn't advertised nowadays.

The big idea is how to get the most returns for every advertising dollar spent.

The modern advertising expert is not a literary genius nor a spell-binding solicitor.

He is student.

Advertising

or in peace

域是其實際

in war

is a necessity

He is busy investigating Mr. Average Consumer; his needs, his habits, his tastes and his ability to buy.

RED GROSS WORK ROOM TO BE RECPENED

Call for Clothing for Children in Europe to Be Answered by "Greatest Mother"

Due to a call for help from overseas, the Red Cross local workrooms are to be reopened in Richmond just as soon as a suitable place can be secured. Mrs. W. H. Grider, chairman of the local chapter, has received an urgent letter asking that something be done for the children of Europe who are suffering for the bare necessitites of clothing as well as food. The Lake Division News says this of the call that has been made:

"The Greatest Mother on Earth," always responsive to the appeals of her suffering children, has heard the cry for clothing which has gone up from the hundreds of thousands of little ones in Central Europe who are walking barefoot and clad only in the meager rags or newspapers.

As this issue of the News goes to press letters are being sent! out from Lake Division headquar ters mobilizing chapter workers in a great sewing circle to provide garments for the destitute children abroad.

This renewal of production will take place in common with similar steps by other divisions of the Red Cross, the duty which our organization bears toward the great body of helpless children across the seas clearly recognized.

"Every mail brings renewed requests from the Commission of Europe for clothing for the children served by the Child Welfare Units," W. Frank Persons, vice chairman in Charge of Domestic Operations, wrote in urging upon Lake Division the vital importance of organizing for the relief

Red Cross native women of the destitute countries of Central Europe today are at work in an attempt to meet the distress among their children, but their efforts are in no wise sufficient to solve the problem. The Red Cross, therefore, is putting squarely up to its members throughout the country whether or not chapters shall undertake a production program. In face of the appalling situation overseas it is confidently expected chapters will at once pledge their support and services towards fulfilling the obligation which every representative of the Red Cross who has come in contact with the tragedy of child

life in Europe feels so keenly. The letters received by Mrs. Grider which tells what is urgenty needed is as follows:

Cleveland, Ohio, April 12, 1921. American Red Cross, Madison County Chapter, Richmond, Ky. Attention Mrs. W. H. Grider,

My Dear Mrs. Grider: An urgent call has come from overseas

or children's garments. Miss Clara Noyes and Mr. Ernest Bicknell, who have just returned from Europe, bring to America word of the acute suffering among the children, thousands of whom, born in war time and many of them orphans, have only the most meager rags or newspapers to protect their gaunt little bodies; never having known a shoe or decent article of clothing

A conservative estimate of the present calendar year of clothing needed for the children who will be reached by the personnel of the Child Welfare Units, new established and to be established by the American Red Cross is as fol-

250,000 babies to be provided ith layettes.

250,000 children, 1 to 5 years, to be provided with dresses, petticoats, undershirts, and night

ers and nightgowns.

125,000 boys, 5 to 14 years, un-lershirts, blouse suits and undervision have been asked to contri-

layettes to meet this demand. Mrs. W. H. Grider was the Di-

served during the war.

Grand American Prerogative

The right to choose is the grand American prorogative—the glory of American democracy.

And a most important part of it—the right to choose what you buy-was bestowed upon you by advertising.

Advertising is as much a part of today's life as electricity, antiseptic surgery or motor traction. It is the system whereby a man who has something to sell tells about it to those who do or should use it. For no one can want anything until he knows of its existence.

Advertising is the way by which you are told why you should have certain goods and how to identify those goods. So the advertisements you find in the Daily Register make up a catalogue of needed articles.

Articles of all kinds and for all purposes are presented in a pleasant way through the medium of type and pictures. The outstanding requirements of every member of the family are met by offers of good merchandise of proved value.

The advertisements in the Daily Register will help you in the selection of all manner of things.
